WONDERFUL CURE OF CONSUMPTION WONDERFUL CURE OF CONSUMPTION

BY SCHENCE'S PULMONIC SYRUE-MR. SCHENCE. SR:—
I address you this letter to inform you of the remarkable and
unexpected effects which your Syrup has produced in my
owncase. I had been complaining of a slight cough and pain
in my breast for several years. Last July, I was engaged
in digging a cellar, and was in a profuse perspisation, and
from my own esrelessness I took a violent and heavy cold
—was confined to the house immediately afterwards, and
from which I never came until I was cured by your Pulmonic Syrup; a period of 8 months. My cough was incessant, pain in my breast and loss of appetite, coughed up
great quantities of phiegm and considerable blood. I kept
getting weaker until the night aweats and heutic fever commenced, which still increased my debility. The attouting
physician pronounced my case incugately consumption. genting weaker until the night aweats and hectic fever commenced, which still increased my deability. The attending physician pronounced my case incurants coasumption, and my friends gave up all hopes of my recovery. I had tried many remedies without receiving any bonefit, and concluded i must soon die, as my legs were greatly swollen, and was fearful of their bursting, added to which I was afficied with severe diarrhes. I was reduced to almost a skeleton, when afriend recommenced me to try your Syrup, when after taking eight bottles according to your directions was completely cured. I am now well, and a laboring man, and can do a good day's work; and stirbute this great change entirely to your syrup. I know many persons believe Consumption is an incurable disease; but if ever there was a case of consumption in the world, I believe when was one of the worst kind, and but for your Syrup, I believe ere this would have been in my grava.—There are many hundreds in this city whose cases are like mine were, but if they would only procure your Syrup they would soon be well. Every one interested in the care of consumption, can see the great benefits of the Syrup by calling on the subscriber, whose sole motive in stating the above facts is for the benefit of his suffering fellow creatures

THE NEW VILLAGE OF STRATTONrosr.—The people have at last it seems, aroused themserves from their lethargy, and are looking in every
direction for good sites for outliding lots; iney seem electmined to remain no longer in the power of landierds, and
are anxious to have a piace which they can call their owa.
We would call the attention of the public in a particular
manner, to the village of Stratuspoor, recently brought into the market by Mr. Flammer, 225 Wooster at; within a
stone's throw of Flushing, it overlooks both the city of New
York and the ocean. The prices charged for lots are very
trifling, and by the payment of a small sum down, not over
Tweety-Five Dollars, you can insure your bargain, and pay
the balance in monthly instalments, to suit your conventence. There is a good dock built, and the proprietors
have now made arrangements to have a steamboat ply betiered in and the city; rext weet they propose making their
first trip; the fare they intend to put at the lowes; mark,
probably at sixpence. There is considerable talk of a railroad between Williamsburgh and Flushing; and we have
no hesitation in saying that should such a project be carried
into effect the value of the lots would be instantly quadrupied. The establishment of a thriving village is now
placed beyond doubt; no day passes without disposing of
from twelve to twenty lots, and soon there will be none
eleft. The beauty of the situation is such, that none go to see
it without becoming purchasers of one or more lots. The
ground slopes gently towards the bey, and seems as if nature
had expressly designed it for a romantic and beautiful village. The scamboat will bring the place within forty five
minutes of the city; and indeed we can scarcely name an
advantage which his beautiful spot does not possess. Mr.
Flammer, who is selling these lots, is to be found every
day, and at every hour, at his office, 225 Wooster st.; and
we can say from our personal knowledge that he will be
found what he appears to be, a plain-spoken, straigh THE NEW VILLAGE OF STRATTON-

Connecticut Election. BETTER

In old times, when there was no Telegraph and no Railroad between this City and New-Haven, we used to arrange our expresses in and from that State so as to have the returns from two-thirds of the towns in our office within ten hours from the close of the Polls, and so tell how the State had gone in our next morning's paper. But never since we have had two or three Telegraphic lines through that State have we been able to give a clear account of any Election the morning after its occurrence; and, since the State has been all chequered with Railroads centering on our City, we are unable to give the result in full even the second day. We must contrive a way

This year we relied mainly on the arrangements made by associates in Telegraphing, who seem to have consorted entirely with the Loco-Foco concerns at Hartford and New-Haven, and so sent on Election night only the worst news for the Whig party. We had early returns from all the Cotton holes in the State, with accounts of Loco-Foco triumphs here and gains there, but nothing to show the strong counteracting gains made by the Whigs of other parts of the State, which more than overbalance the prematurely boasted successes of our adversaries. The general result throughout the State shows a WHIG gain from last year-of that, we are confident, though we do not yet know, owing to the utter derangement of all the Telegraph lines by last night's tempest, which party has the State. All depended on the result of the second-day elections to fill vacancies in the House, which took place yesterday amid a raging storm, and from which we have, at this present writing, no single word. But on the returns of the first day the Whigs gained in the House, gained in the Senate, gained (we are confident) Charles Chapman over and in place of Loren P. Waldo to Congress, and we trust have reëlected Thomas B. Butler in spite of the Cotton treachery in Bridgeport and its environs. Our adversaries have reëlected Chauncey F. Cleveland by the Abolition vote, without which he would have been beaten out of sight, and chosen Colin M. Ingersoll in place of Booth by the Cotton diversion in New-Haven and vicinity. (All is fish that comes to their net.) We cannot say how the State Officers will be until we have seen the result of the second-day elections, but we believe the Whigs have at least an even chance for them, and more than an even chance to return Roger S. Baldwin to the U.S. Senate. Is that a result to cry about in these times? Here are such

additional details as have reached us: Hartford Congress District. We have returns from all the towns in the District (Hartford and Tolland Cos.) but five, which

give the following aggregates:

Probable result..... 7,448 He has gained on the Governor vote of last year, in the towns heard from, and we do not think he can have lost 112 in those to come. Fairfield and Litchfield District.

Our returns from Fairfield, which lies at our door, are more defective than those from any other part of the State. We have enough, however, to show that the vote for Governor is very nearly even, and it appears that Mr. Butler runs shead of Foster. Litchfield has given a small Whig majority for Governor-say 200. Unless Butler has run behind Foster in Litchfield, he must be

-We do not give a table of t because our returns are imperfect; but we have enough to assure us that the Whigs chose nearly or quite One Hundred on Monday, to not more than Ninety Loco Focos and anti Whig Free Soilers combined. Vote of Hartford, | Wall |

Postscript-Wednesday, 1 A. M .- The Telegraphs East are disabled, but we have rumors by the Night Express Train, which arrived at a late hour.

CHARLES CHAPMAN'S election to Congress from the Hartford District is conceded by the Hartford Times of last (Tuesday) evening. So is that of the Whig Sheriff of Hartford County. So is (in effect) a Whig majority of one in the Senate, which was last year but two-sevenths Whig. So is a Whig preponderence in the Representatives chosen the first day. The Times bases all its hopes of saving the State on the second-day elections. Of these we have only heard from East Hartford, which elected a Whig by a decided vote.

We have a report that E. Moss White (Whig) is the Senator elect from the XIth District, which we have conceded above. We do not rely on this report.

hope that THOMAS B. BUTLER is reëlected to Congress, that a Whig will be elected to the United States Senate, and that Whig ascendancy in every branch of the State Government will supplant the Loco-Foco rule of last year. Still, we await To-Day's completer details before claiming

Whig Prescription of Whigs.

We have said little about the recent changes in our State of office-holders under the Federal Government, because we cared little about it. We consider no man entitled to an office, consequently no man wronged either by losing or failing to obtain one. A man fit to hold a responsible station can hardly lack capacity to earn a good living out of office, and so cannot be seriously harmed by being reduced to the ranks. If President Fillmore prefers such men as John T. Bush to such as Palmer V. Kellogg for his most responsible trusts, we consider the fact a proof of very bad taste on the President's part, but of no great public consequence. Mr. K. can be elected to office if he chooses, and has been chosen Sheriff of the County of Oneida when the Whigs were a thousand minus in the Popular Vote of that County-a streak of luck not likely to happen to either the functionary who removed or the one who supplanted him. In fact, we consider Mr. Kellogg every way too good a man for chief Slave-catcher in Northern New-York, and think he should have resigned if he had not been removed. He ought to be obliged to the President for relieving him from duties so repugnant to every pure conscience, to every generous heart. -But while we have not the least ob-

jection to the President's appointing such officers as he likes, and feel no shadow of resentment because those who are supposed to think as we do are turned out and those who profess to think as we don't are put in their places, we cannot so quietly permit false and deceptive statements of the causes of these changes to be circulated. For instance, the Windsor (Vt.) Journal is trying to earn a little dirty pudding from the Executive Departments by assuring its readers that the difference which has led to the recent changes in our State " is purely personal," and that

"It is preity generally known, we believe, that nearly all the offices in New York, within the disposal of the President and Sensie, have been held by those known as 'Sensie, have been the disposal of the President, embracing the warm personal friends of the President, have been almost wholly excluded from such favora."

Now, while we make no objection to the Silver Grays taking all the offices, we do object to their giving false and unfounded pretexts therefor. They have the power, and are not required to account to us for their exercise of it; and if they appoint good men, who serve the public faithfully. we don't believe the People will trouble themselves greatly as to the incumbents of the principal offices. But it is not true that "nearly all the offices in New-York, within the disposal of the President and Senate, have been held by those known as 'Seward Whigs.'" On the contrary, Mr. Fillmore, on his accession to the Presidency, found the best offices in the Presidential gift filled as follows:

Hugh Maxwell, Collector for this Port; Hugh Maxwell, Collector for this Port;
John Young, Sub-Treasurer;
William V. Brady, Postmaster;
Henry F. Tallmadge, Marshal S. Dist.
Palmer V. Kellogg, do. Northern Dist.
Philip Hone, Naval Officer;
Zebedee Ring, Surveyor of the Port;
— Leroy, Navy Agent;
Charles B. Stuart, Engineer Dry Dock.

These are all the offices of much account in the State-all places of great responsibility, patronage and power; and only one of them was filled by a 'Seward man' so called-that of Marshal of the Northern District. Of the interior Post-Offices of any account, a majority were held by 'Seward men,' because they had been dictated by the Whig party of their several localities, but several of the more important smong them were held by anti-Seward men, and Mr. Fillmore exercised his undoubted prerogative in withdrawing Gen. Taylor's nomination for Postmaster at Albany and substituting one of his own most devoted partisens. He might have done the same with regard to the Troy, Buffalo, Auburn and other offices had he seen fit, but he did not. The Postmasters at Canandaigua, Geneva. Batavia and several other important towns were and are active anti-Seward men. But all these amount to little. The chief effective patronage in this State was wielded by the Collector, Naval Officer, Surveyor, &c. in the Custom-House, the two Marshals, the Dry Dock Engineer, and our City Postmaster; and of these only the Marshal of the Northern District was a 'Seward man.' He has been turned out; so have the Postmasters at Troy, Little Falls, Corning, &c. the Collector at Rochester and a few more of the same sort. We make no complaint; we shall support the President and his Cabinet just as heartily as ever in all their measures calculated to diversify the Industry and promote the Prosperity of the Country; but let us have no shams. The men recently removed from office in our State were so removed because they were Seward men' and for no other reason

The Deutsche Schnellpost is now publishing a series of articles on Central America and British pretensions, and the other day made the following statement:

resisting Mr. Chatfield just to appeal to his government, and the corrupt Galphin Cabinet not only left him in the burch but actually recalled him at the instance of Mr. Bulwer." This is a historical mistake. Mr. Squier was

not recalled by the Cabinet of Gen. Taylor, but by that of Mr. Fillmore. The former Cabinet, it is understood, sustained to the last the acts of their Envoy, and had they remained in power no-We have nothing to shake our confident | body supposes he would have been recalled.

CHIEF JUSTICE BRONSON .- The Commercial Advertiser copies a part of our article based on Judge Bronson's resignation,

"Our neighbor's memory, we think, must have been 'entirely at fault' in this instance, which is not usual with that journal in matters of politico-local history. Chief Justice Bronson, we believe, was placed on the bench of the Supreme court in October, 1835, and when he was appointed was Attorney General of the State. So far from being a young lawyer, glad of the salary appertaining to his new appointment, he had already acquired a high reputation, and all his friends regarded his acceptance as a great personal sacrifice. These being the facts of the case, the ungenerous remarks of The Tribune, we take it, are entirely unmerited."

- It is quite possible that it was not Mr. Bronson's appointment to the Supreme Bench, but some previous appointment, perhaps to the Attorney Generalship. which called forth the remark recollected by us; for we must yet believe our memory was not "entirely at fault." Mr. B. has been for a good many years in the State's service, and did not (we presume) think he made any sacrifice in first accepting office; but now he thinks he can do better, and steps out. The Commercial thinks our remarks "ungenerous," which we repel-We do not know Mr. Bronson, and have no shadow of unkind feeling toward him; but we do think he ought to have served out his term. Suppose The Commercial had engaged a foreman or pressman for three years, at the stipulated wages of \$1,000 per annum, and, at the end of the first year, said foreman or pressman, seeing a chance 19 do better, were to throw up the engageme, a would The Commercial deem remonstrance on its part "ungen-

Mr. May, of Syracuse, and George Thompson, delivered an Anti-Slavery Lecture last night. Mr. May said it was better to break up the Union than that Slavery should continue. He hoped in the name of humanity his country would not stand, if it could not stand but upon the necks of three millions of people. Mr. Thompson answered the question, What has Canada to do with American Slavery? by quoting the language of Daniel Webster and Gen. Cass on the Hungarian question.

Williamsburgh Election.

The Charter Election in this Village came off yesterday, and up to 1 o'clock A. M. we have been enabled to obtain the following returns: FIRST DISTRICT .- The exclusive " Reform"

party was here entirely successful, their ticket beating that of the Whigs by an average majority of 200. The closest contest was for Tax Collector, resulting in the choice of Benjamen N Disbrow, (Reform Whig) by a vote of 561 to 535 for James H. Rich, the regular Whig candidate-The Reform "Village" and "Town" officers are also chosen. The Reform ticket was composed of National Reformers, Whigs and Locos; and the Whig ticket was composed of straight-out party SECOND DISTRICT .- The Land Reformers and

the Loco Focos combined, proved too much for the Whigs, resulting like in the First District. The only regular Whig chosen here is Joseph Anderson, as an Assessor; James Murphy (Loco) is elected District Collector by 181 majority.

THIRD DISTRICT.—The "Reformers" are also triemphant here, their highest vote on Village Trustees being 444 to 360 for the Whige. The vote on Collector was, for Cornwell (Reformer Loco) 427, to 357 for Braisted, the regular Whig
